**IMPORTANT**
Stress relievers are made by hand and no two anti stress items are exactly the same shape or colour. Items may have been sprayed with a release agent in manufacturing, which means we cannot guarantee print fastness or ink density. White print is always transparent. Silver & Gold print are recommended and are the most dense ink colour on most colours. Exact PMS colour matches not available, we will match as close as possible. Avoid Stipples and Halftones. Solid Type and small areas of reverse print are not recommended. Squares & rectangles on some round shapes may cause an optical illusion. Broad print areas may break up and print may not be solid. Some White Stress items turn yellow after continued use. Anti Stress items are not toys and not suitable for children under 3 or pets. Due to the characteristics of stress item material (PU) adequate force may cause them to tear especially on shapes that have size variations like necks, arms, legs and ears. This is not a fault of the product and no claims will be considered. Stress items are meant to be squeezed not pulled. Always ensure your client sees a sample and reads this disclaimer. Anti Stress items may vary from shipment to shipment.
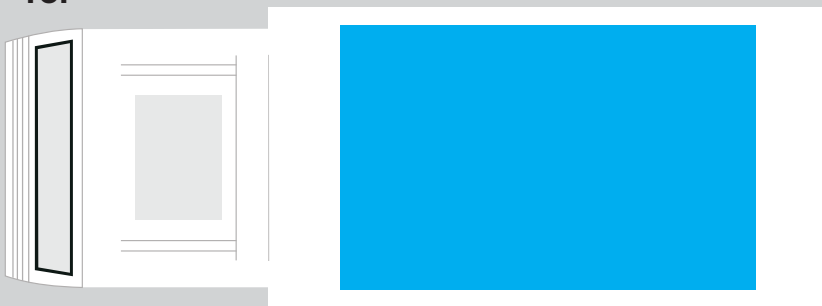

**SIDES**

Maximum print area: Side - 65mmL x 15mmH
Actual print size:

Maximum print area: Back Doors - 35mmL x 20mmH
Actual print size:
