Print Colour

IMPORTANT:

All jpeg & Tiff files must be at least 150dpi at print size and saved in CMYK colour format.

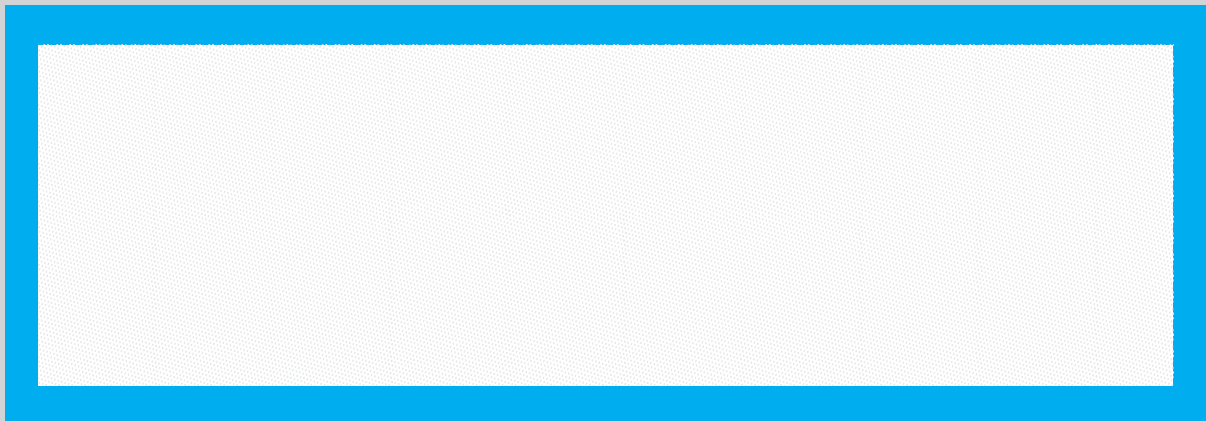

Chill towels can have some minor folds or threads and printing over the folds or threads doesn't detract from the design and is considered acceptable.

SUBLIMATION: This item is printed in CMYK.

If pantone colour matching is important we require you to provide specific PMS colours, and we will produce closest CMYK colour match possible (to CP equivalent of coated pantone colours - perfect colour match not guaranteed). Vector art is required for colour matching. We are unable to edit colours in rasterized images. Print colours may be altered in appearance if placed on a strong colour background.
