SUBLIMATION PRINTING

Bags are printed using CMYK format and perfect colour matching is not possible. If colour matching is important you need to supply pantone colours and we will produce the closest CMYK match possible. We are unable to edit colours in rasterised images.

PRINTING ONTO CALICO BAGS

Calico tote bags are not perfectly straight, therefore true squares/rectangular designs may appear distorted on the product and designs using full coverage print areas are to be avoided. Calico can have some minor folds and printing over the folds doesn't detract from the design and is considered acceptable.
